

CROWN & CODE CYBERSOLUTIONS INC.

CYBERSECURITY ENGINEERING & DIGITAL TRUST

CAPABILITY STATEMENT

COMPANY OVERVIEW

Crown & Code CyberSolutions Inc. is a cybersecurity engineering and advisory firm specializing in Digital Trust, Public Key Infrastructure (PKI), Certificate Lifecycle Management (CLM), encryption, cryptographic modernization, crypto agility, and cybersecurity compliance.

We help enterprise and government organizations assess, modernize, and secure mission-critical environments through engineering-led cybersecurity, digital trust, and cryptographic modernization.

CORE COMPETENCIES

- Cybersecurity Engineering & Security Architecture
- Public Key Infrastructure (PKI)
- Certificate Lifecycle Management
- Encryption & Key Management
- Identity & Access Management
- Cloud Security & Cloud Architecture
- Crypto Agility & Post-Quantum Readiness Assessments
- Governance, Risk & Compliance
- Program Management & Technical Advisory

KEY DIFFERENTIATORS

- Active U.S. Government Top Secret Security Clearance
- Enterprise Digital Trust Engineering
- Vendor-Neutral PKI / CLM / HSM Advisory
- Crypto Agility & Post-Quantum Readiness
- 25+ Years of Enterprise Cybersecurity Leadership

REPRESENTATIVE TECHNOLOGIES

THALES | ENTRUST | VENAFI
MICROSOFT ADCS | DIGICERT | AWS

FEATURED PAST PERFORMANCE

Enterprise PKI Modernization

SCOPE

Assessment and modernization of enterprise Venafi and Microsoft PKI environments.

KEY RESULTS

- Improved certificate lifecycle governance
- Integrated Microsoft Active Directory and Microsoft Entra ID
- Enhanced operational processes
- Delivered engineering knowledge transfer

Enterprise PKI Architecture & Crypto Agility Assessment

SCOPE

Vendor-neutral assessment of enterprise PKI, Certificate Lifecycle Management, Hardware Security Modules, and cryptographic architecture.

KEY RESULTS

- Evaluated multiple enterprise PKI platforms
- Assessed crypto agility and post-quantum readiness
- Developed future-state recommendations
- Presented executive technical findings
